Facade and Signage Improvement Program

Guidelines and Application

A. INTRODUCTION

The City of Azle has established the Facade and Signage Improvement Program (FSIP), which will provide technical and financial assistance to property owners or business tenants seeking to renovate or restore their exterior signage, lighting or commercial building facades. The FSIP is designed to impact properties in need of revitalization, resulting in the improved exterior, visibility and presentation of a business. The FSIP is not designed to subsidize corrections to building code violations that prolong the life of a commercial property.

FSIP will provide a fifty percent (50%) matching grant of up to \$10,000 for the funding of well-designed improvements which will coordinate all the important features of the storefront into a more attractive image while creating, if necessary, an accessible entrance for the public. This may include the restoration of architectural details, better windows and doors, and well-proportioned signage and lighting. An additional fifty percent (50%) matching grant up to \$5,000 may be available for improvement of existing signage or construction of new City-approved signage. City staff will be available to provide assistance to applicants through the conceptual stage at no cost to the applicants. Applicants, however, will be responsible for hiring licensed architects and contractors to refine this conceptual design depending on the scope of work.
